OAC Avatar Conventional Soybean

Description

OAC Avatar is a top-yielding IP variety in its maturity class. This 2900 HU (RM 1.6) imperfect yellow-hilum soybean is widely adapted across Ontario and Quebec.

Performance

- 106% 3 year average yield index¹

Characteristics

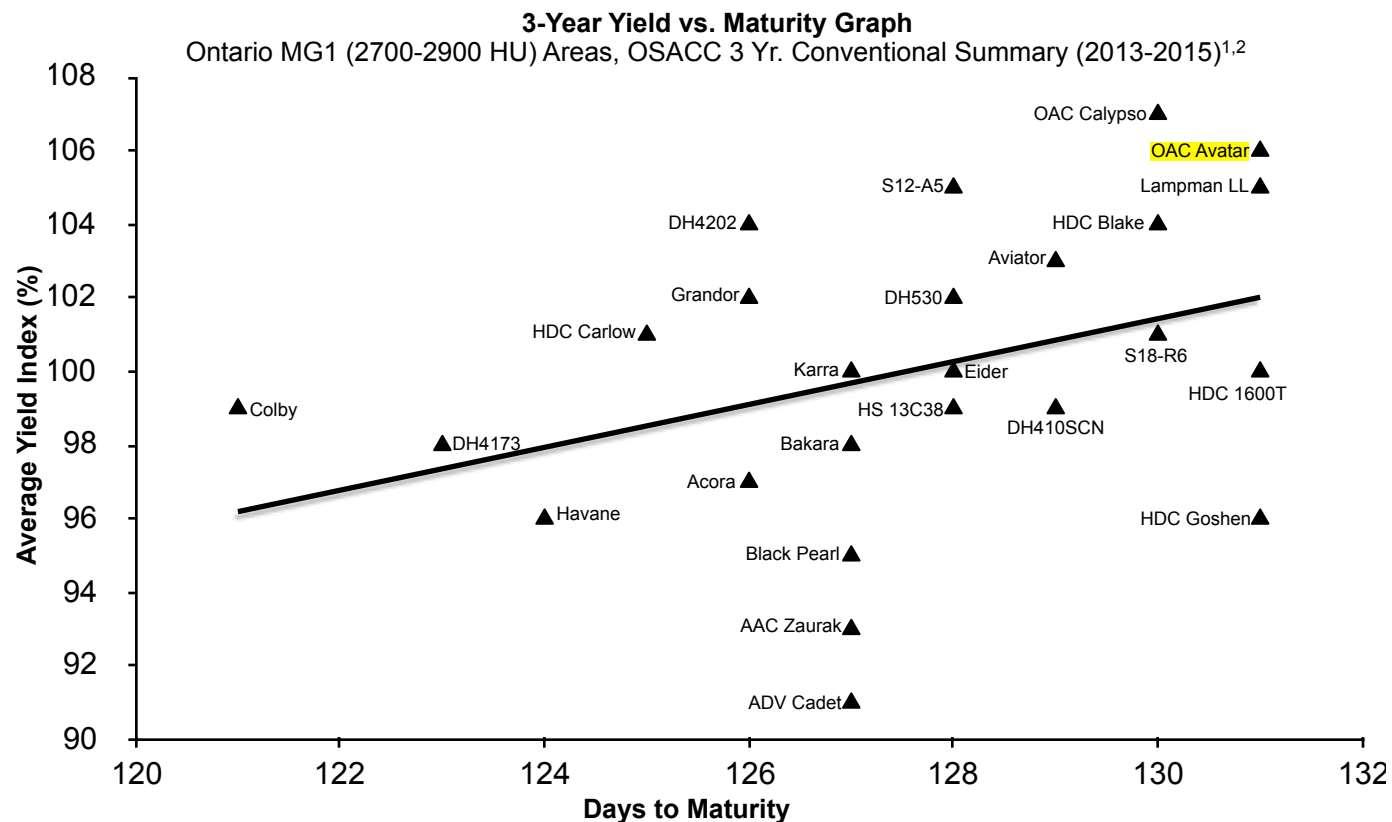

- Imperfect yellow hilum
- 41.8% protein and 19.5% oil indexes
- Good lodging resistance
- Good tolerance to Phytophthora root rot

Management

- Adapted for all soil types in Ontario
- Performs well across 7" to 30" row widths in both conventional and no-till operations
